Profile

I'm a dynamic Full Stack Developer with a sharp focus on Front-end Development. I've mastered technologies like HTML/CSS, JavaScript, React, NextJs, and Tailwind CSS. My drive for optimizing software performance and my knack for integrating web API set me apart. I've collaborated with international teams, navigating diverse cultural backgrounds seamlessly. I prioritize user-centric solutions and always push for technical excellence. I'm eager to elevate software solutions to global standards.

Key Skills:
Front-end Technologies: Proficient in React, Next.js, and Tailwind CSS to build interactive and responsive user interfaces.
Build Tools: Experienced in using Vite.js for efficient and fast application development.
Back-end Development: Skilled in working with MongoDB and Express.js to create robust server-side applications.
API Integration: Capable of integrating and working with various web APIs to enhance application functionality.

Professional Experience

Web Developer, *CoverApp Digital, Kyrenia*   02/2020 – 12/2022
                                                                                                   Kyrenia, North Cyprus
- Designed user-friendly and visually appealing user interfaces to enhance the overall user experience.
- Worked well independently and within a team of 5 developers.
- Worked closely with the UI/UX team and translated Figma designs into fully responsive user interfaces.
- Utilized React to create a single-page application that improved page load times by 50%.
- Optimized web page loading times by 30%, improving user experience and engagement.
- Developed a responsive website for an e-commerce company that increased user engagement and page load times by 30%
- Collaborated with cross-functional teams to identify customer requirements and develop technical solutions.
- Integrated APIs and third-party services to expand the functionality of the apps and improve user engagement.
- Developed full-stack web applications from scratch, including back-end services, front-end interface, and database

Junior Frontend Developer, *First World Connect Ltd, Lagos, Nigeria*   01/2017 – 08/2019
                                                                                                   Lagos, Nigeria
- Worked as a productive and positive team member to design, code, test, report, and debug operations.
- Successfully identified, diagnosed, and fixed website problems, including broken links, typographical errors, and formatting issues.

- Helped to achieve a consistent look and visual theme across the website by promoting uniform fonts, formatting, images, and layout.
- Worked to assess competing websites in regard to content, look, and feel.
- Working closely with our product UX team to find practical and efficient solutions to complex problems.
- Integrated APIs and third-party services to expand the functionality of the app and improve user engagement
- Developed a secure, interactive web application with a modern front-end framework and an intuitive user interface
